CAMPUS MAINTENANCE AND ISSUE TRACKING SYSTEM

**Smart solution for efficient
campus issue management**

By: Agrasain Balika Siksha Sadan

What is the **system** about?

A Campus Maintenance & Issue Tracking System is a centralized digital platform that allows students and staff to report facility problems instantly while enabling administrators to track, manage, and resolve them in real-time.

WHY WE NEED IT ?

Campus maintenance issues are reported informally

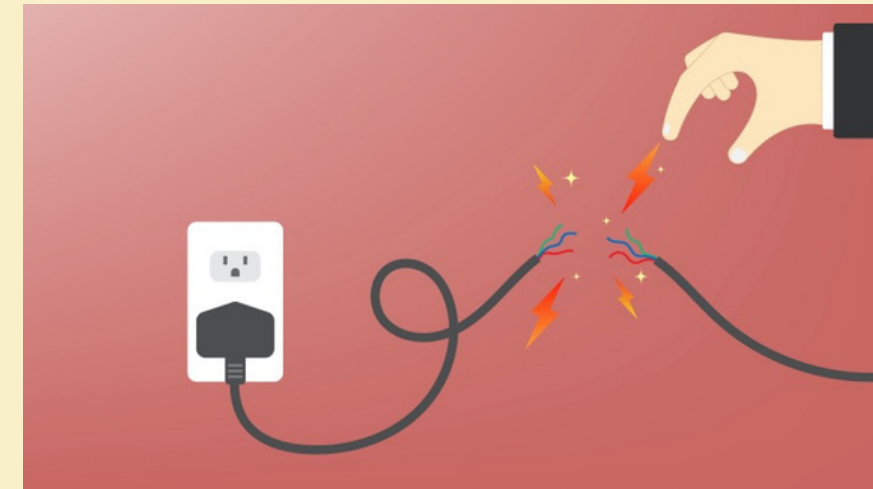

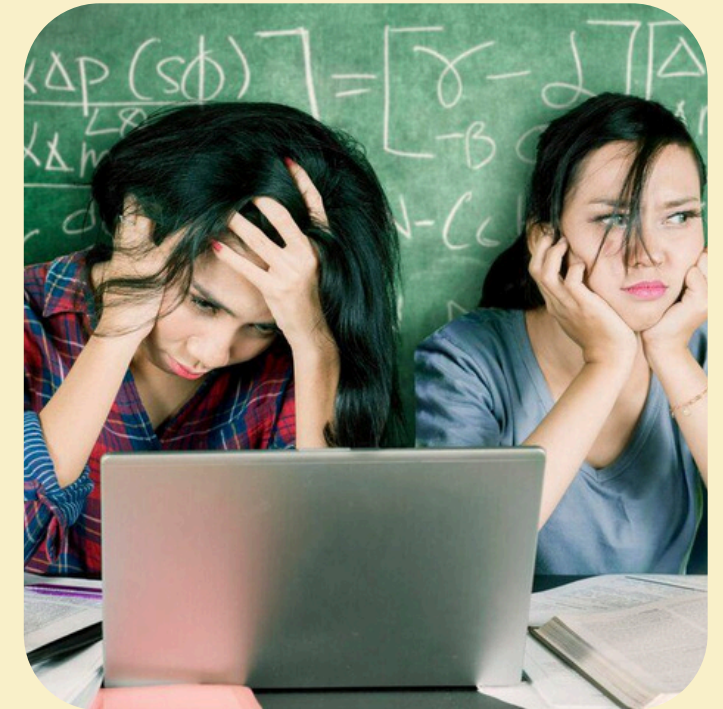

Complaints get lost or delayed

No proper tracking or accountability

Students and staff don't know issue status

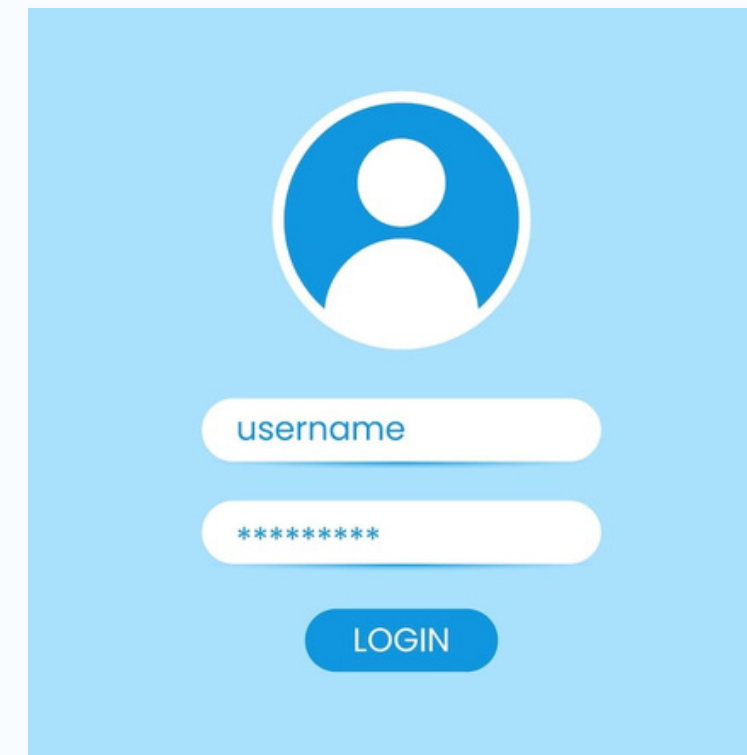

SOLUTION

A web based system where:

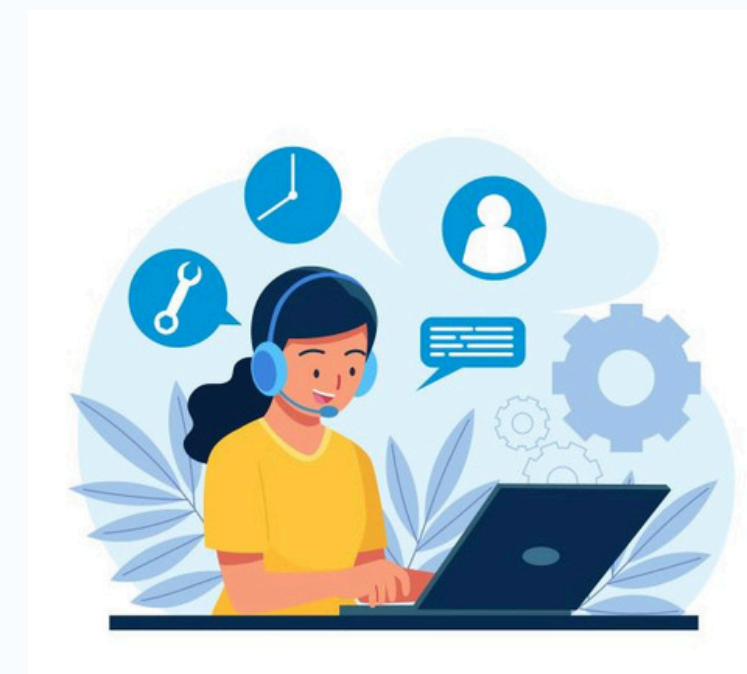

- **Users can log in and report issues**
- **Issues are stored in a database**
- **Admin can view update and resolve complaints**
- **Everything at one place**

Transparent and organized.

**USER LOGIN
AND REPORT
ISSUES**

**ISSUES ARE STORED IN
DATABASE**

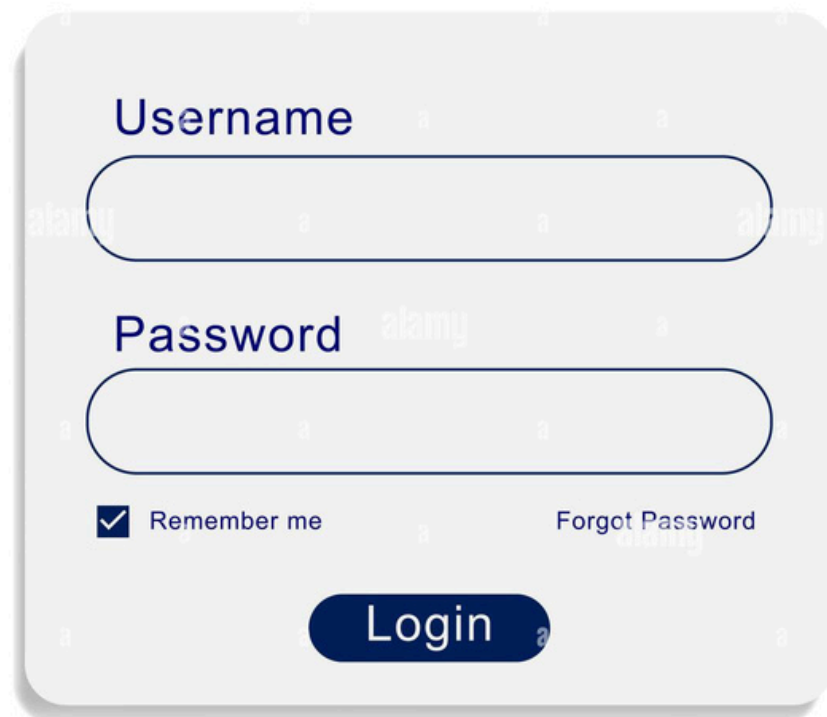

ADMIN CAN CHECK AND RESOLVE ISSUE

HOW IT WORKS

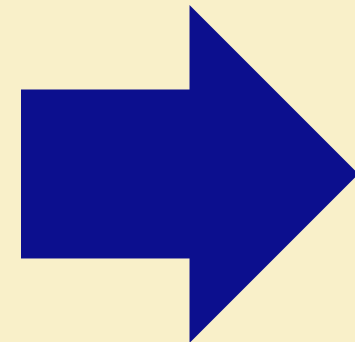

[USER]

Login Page

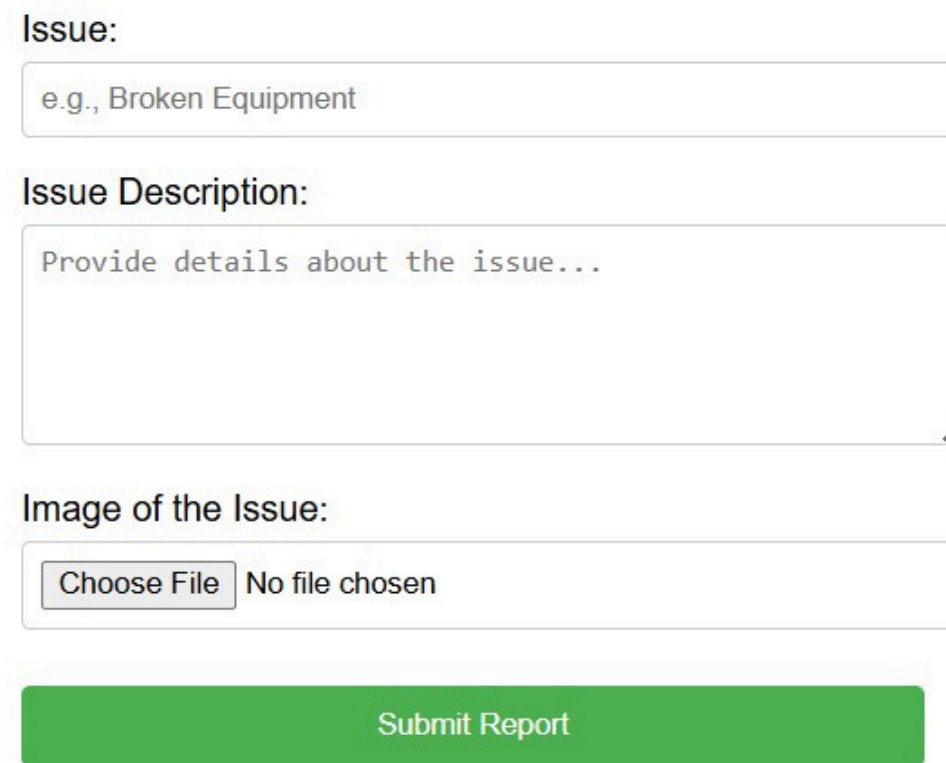

A login form with a light gray background and rounded corners. It contains two input fields: 'Username' and 'Password'. Below the password field is a checkbox labeled 'Remember me' and a link 'Forgot Password'. At the bottom is a dark blue 'Login' button.

user can register / log in

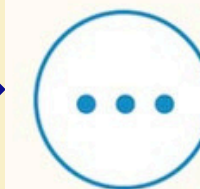

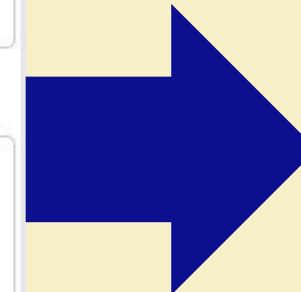

Report a Campus Issue

An issue reporting form with a white background and rounded corners. It includes an 'Issue:' input field with placeholder text 'e.g., Broken Equipment', an 'Issue Description:' text area with placeholder text 'Provide details about the issue...', and an 'Image of the Issue:' section with a 'Choose File' button and 'No file chosen' text. At the bottom is a green 'Submit Report' button.

**an issue tracking form will open
where they can register their issue**

Pending

In-Progress

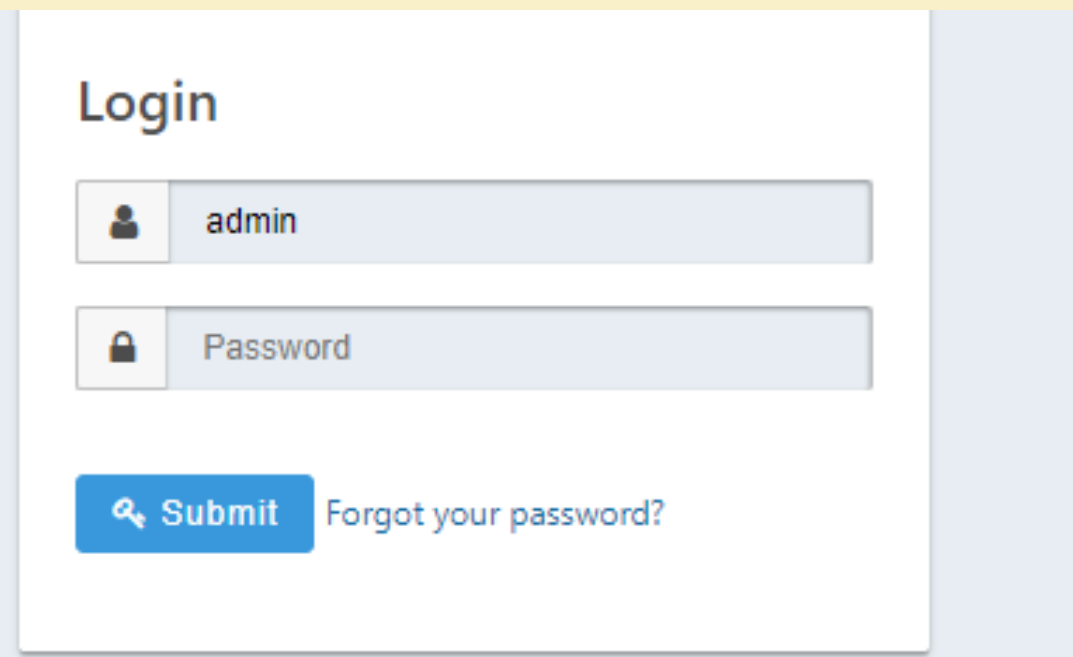

Complete

**users can then,with time
check the issue status**

FOR ADMIN

Admin Login(with restricted access)

A login form titled "Login" with two input fields: "admin" for the username and "Password" for the password. Below the fields is a blue "Submit" button and a link "Forgot your password?". A blue arrow points from the form to the right.

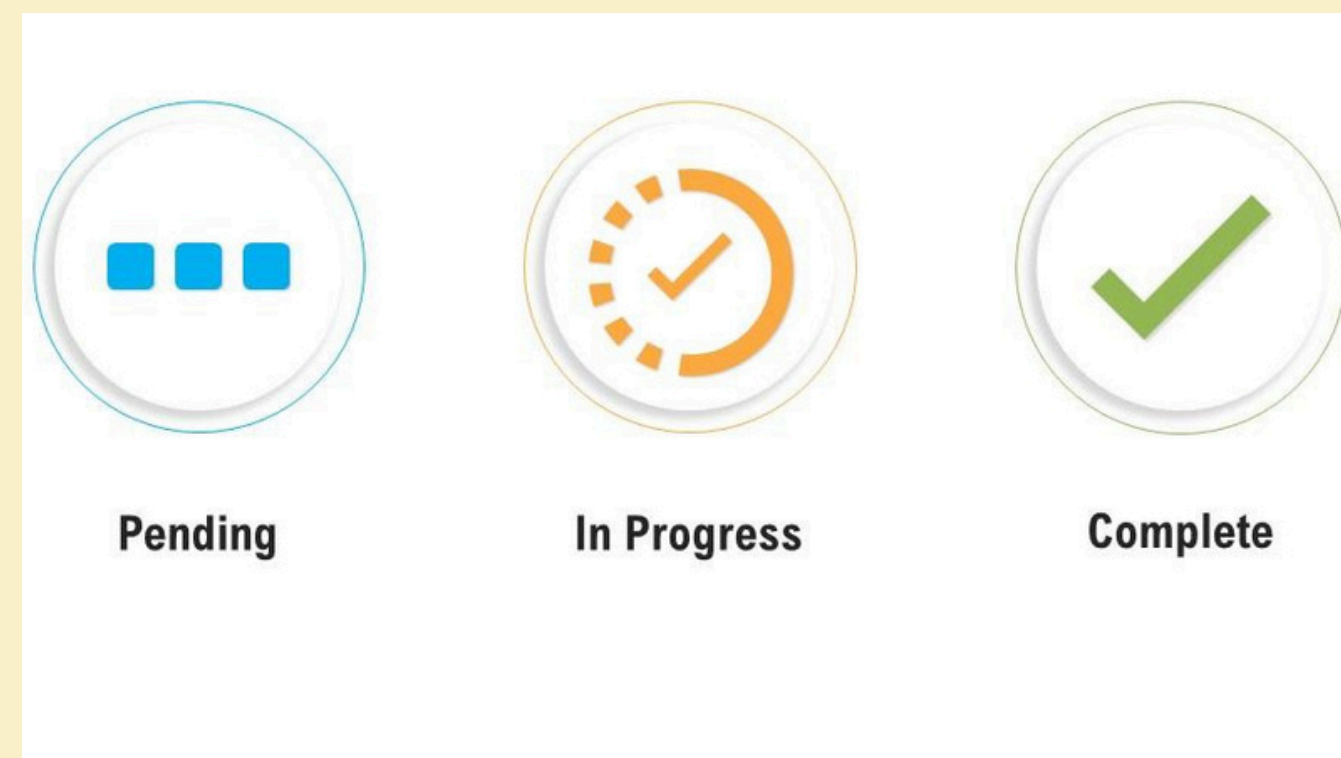

An illustration of a man with short brown hair, wearing a light blue shirt, sitting at a desk and using a blue laptop.

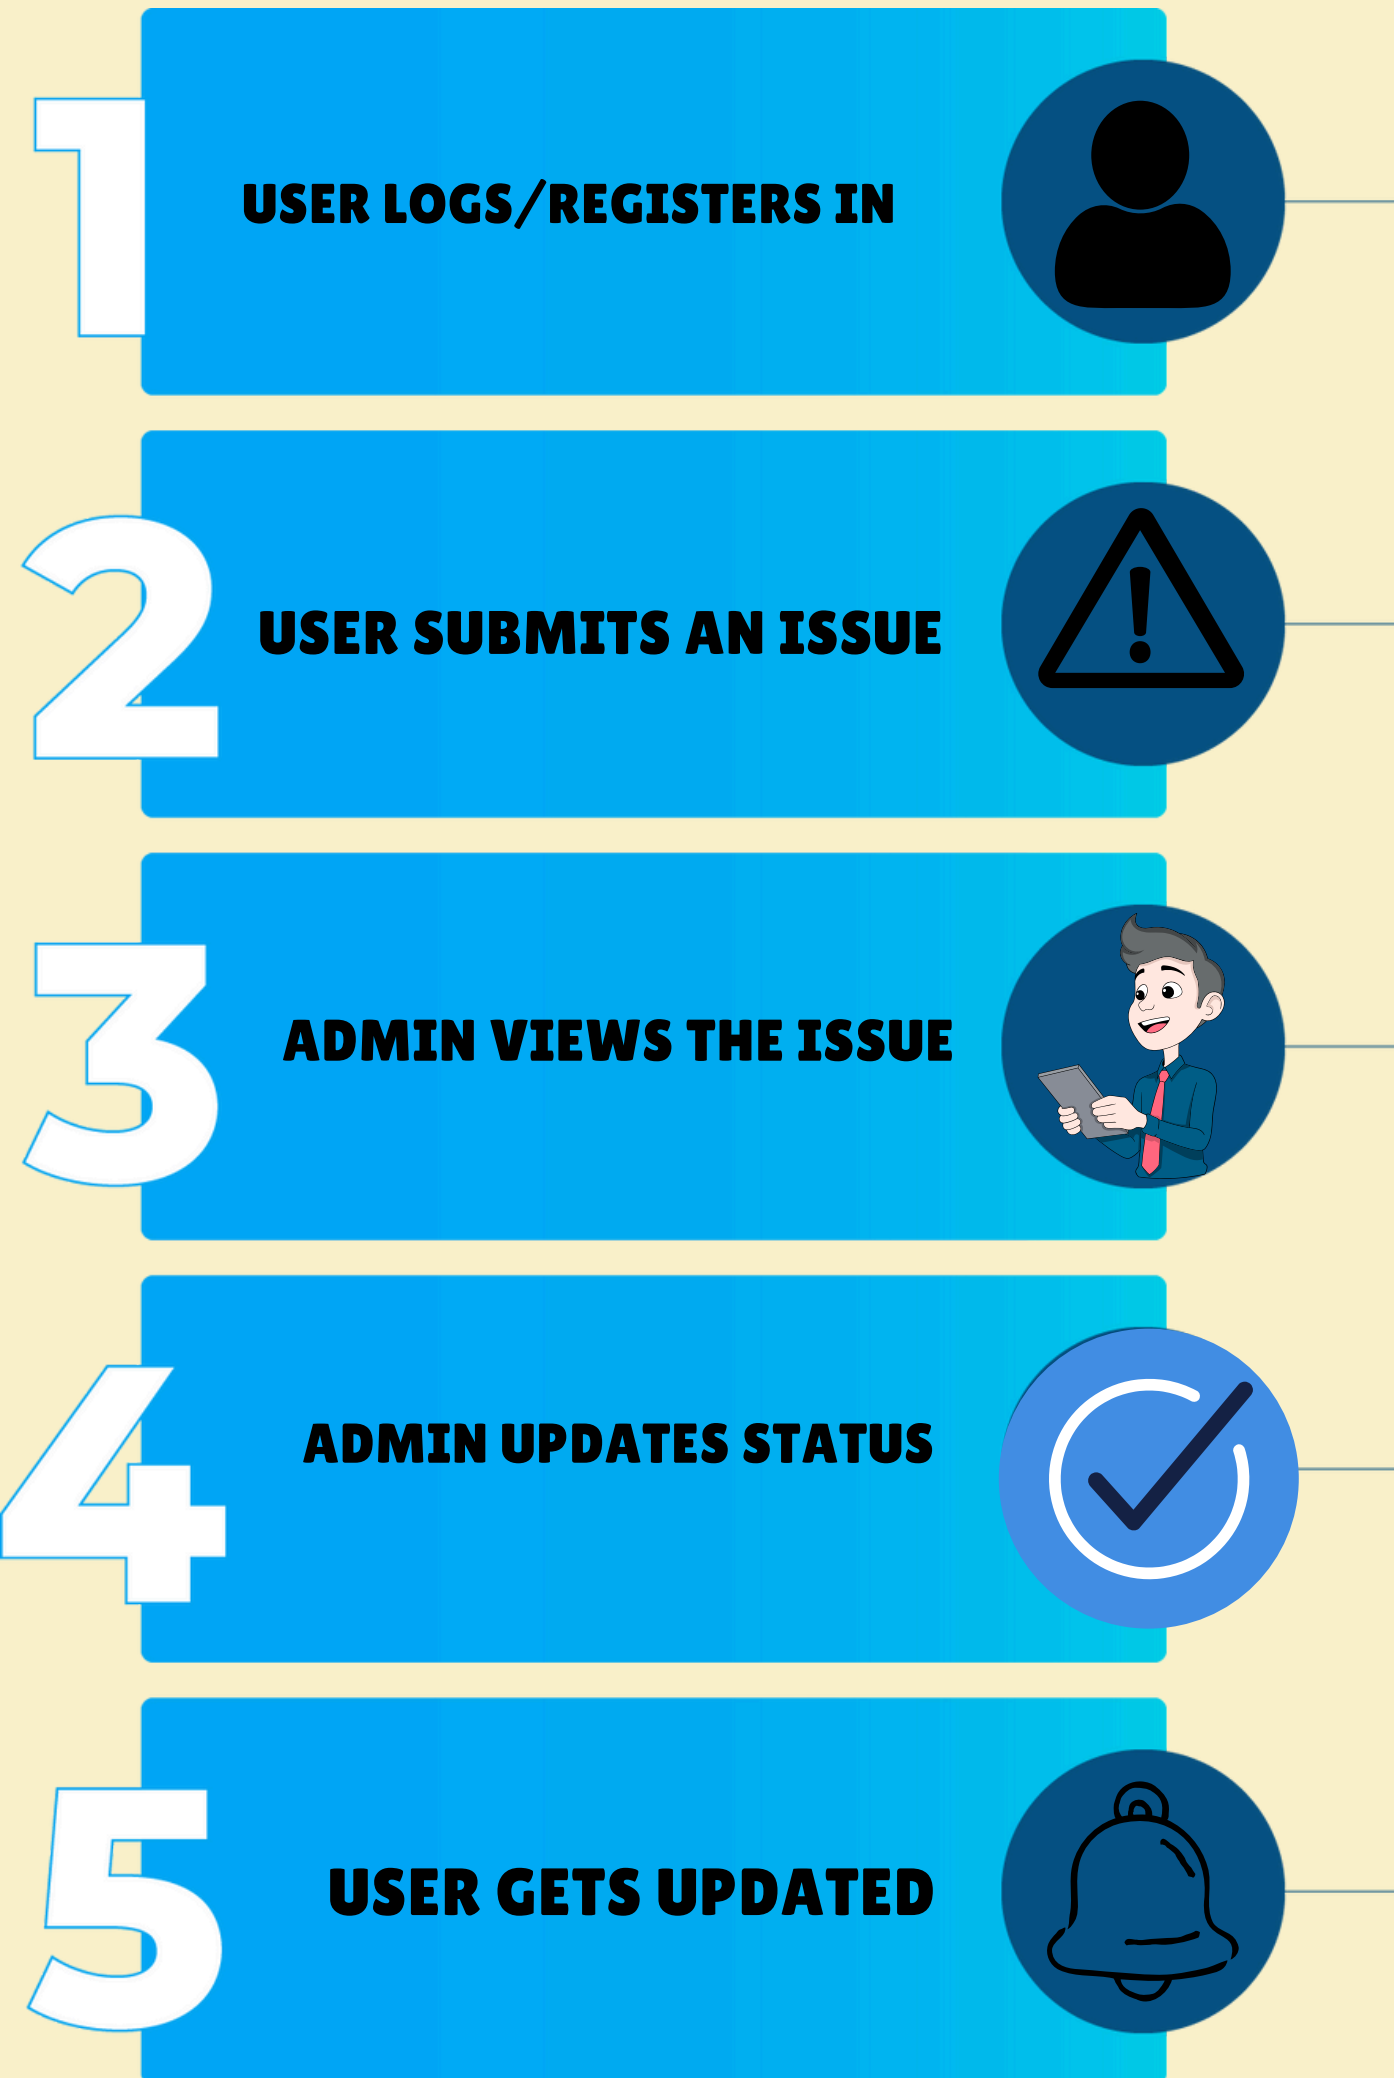

Feb 18	IN PROGRESS	
MEDIUM	Mar 20	
Feb 29	OPEN	
MEDIUM	IN PROGRESS	

After Logging In Admin can track the registered issues

They can mark the status of the registered issue

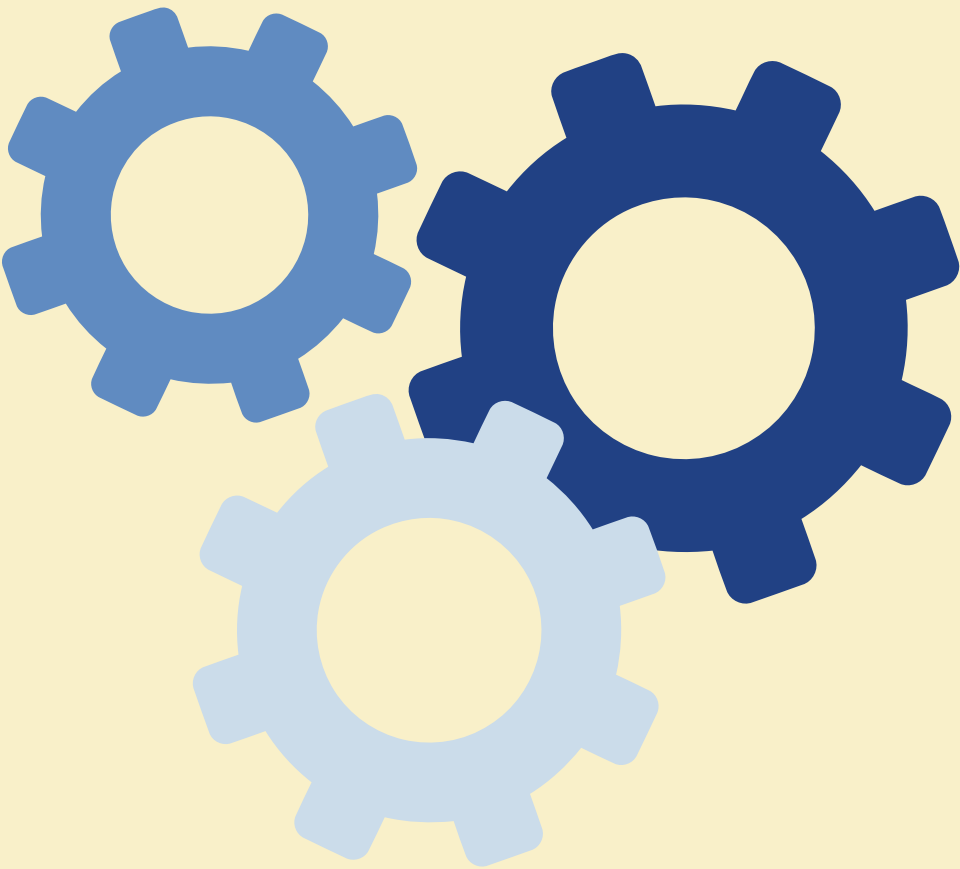

TOTAL SYSTEM WORKFLOW

The user logs into the system and submits an issue, which is stored in the database with a pending status. The administrator reviews the issue, updates its status, and marks it as resolved after completion. The user can track the status of the issue until it is resolved.

TECHNOLOGIES USED

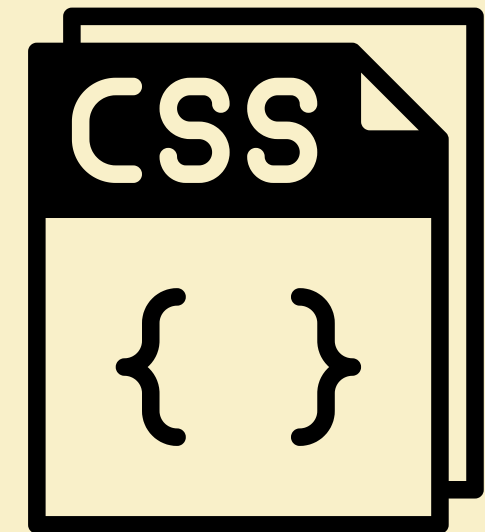

FRONTEND:
HTML,CSS
,BOOTSTRAP

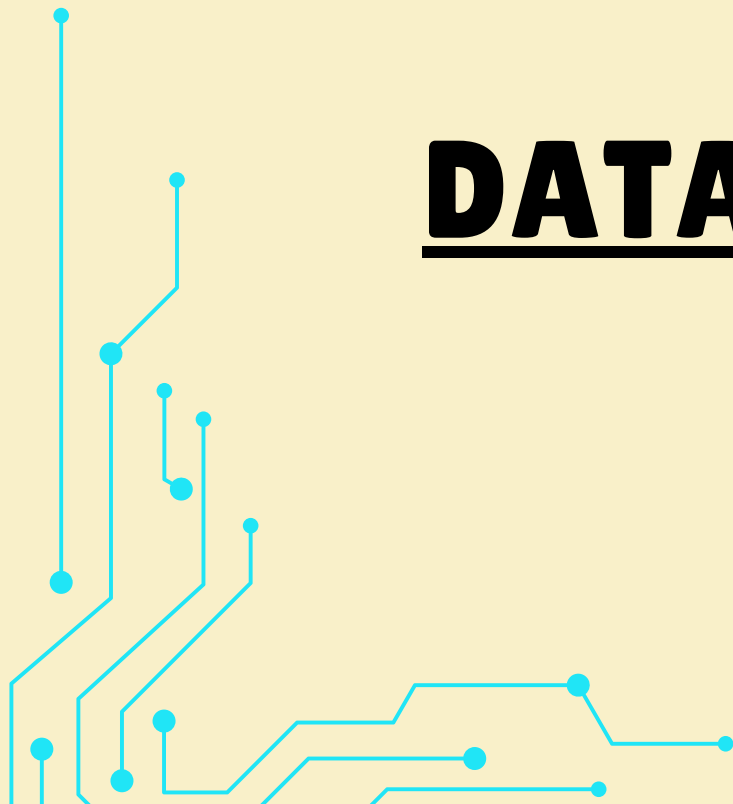

BACKEND:

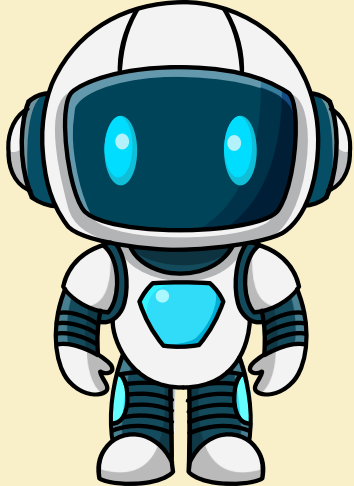

PHP

HTML

DATABASE : **MySQL**

DATABASE DESIGN

USER TABLE

USER ID	NAME.	EmailId	PhoneNo	Password	Image of user

ISSUE TABLE

user ID	issueid	description	image	status	Date

ADMIN TABLE

Admin Id	Username	Password

IN CONCLUSION

APNA CODING HUB'S

Campus Maintenance and Issue Tracking System provides a simple and effective solution for managing campus-related problems. By digitizing the complaint process, it ensures transparency, faster resolution, and better coordination between users and administrators and supervision and welfare of the supporting staff. The system is practical, user-friendly, and can be easily implemented in educational institutions.

Thankyou
